

Trust is the foundation of every advisor–client relationship. Moventum helps strengthen it.

Independent and product-neutral, Moventum S.C.A. supports its clients — financial advisors — in caring for their own customers, the end investors. A stable and robust investment platform for trading securities, custody, and account management, together with professionally managed, fund-based asset management solutions, complements the invaluable personal advice and planning provided by financial advisors.

Our aim is to meet the individual investment needs of our clients and their customers. We are pleased to offer versatile solutions and 100% reliability.

## Our values

### Responsibility

Every employee of our company takes personal responsibility for the protection of our customers' interests.

### Customer focus

First and foremost, we are service providers. With us, customers take priority and are considered in all decision-making processes.

### Results orientated

Our goal is always to deliver solutions that generate added value. We want to minimize the amount of administrative work for our customers and thereby create outstanding and innovative user experiences.
